Del Castillo – Hear What You Missed

Del Castillo, Austin's favorite band, played their first European gig to promote their current CD "**Del Castillo**" in **Germany** to an enthusiastic and energizing crowd. "It was an unbelievable experience," explains member **Mark Del Castillo**. "Seeing everyone embrace us so readily, obviously enjoying our music as much as we were enjoying ourselves. At one moment I was so moved...I couldn't sing."

For those of you that had the pleasure attending **Austin Night at the New Orleans Music Festival** in **Wendelstein**, you doubtless realize the significance of witnessing 1,000+ music fans standing on their feet, cheering, clapping and dancing to the Nuevo Americano group. How often do you see such joy and abandon and appreciation of superlative musicianship?

In case you did miss it, or even if you were there, we would like to send you a copy of "**Del Castillo**." The band is committed to the world market, especially a return to Europe. **Global Eyes Entertainment** is overseeing all international activities.
