Del Castillo Commit to EU Deal with The Music Agents

Austin, TX based Latin/Rock group **Del Castillo** just inked an exclusive European Union licensing and distribution deal with **The Music Agents**, according to the bands' manager **Preston Sullivan of Global Eyes Entertainment**. The deal includes the complete catalogue of Del Castillo as physical and digital products. The first release is their current US CD, the self-titled "**Del Castillo**," which will be released on **The Music Agents** label through the **SOLO Musica** company.

With years of music business experience, managing partners, **Hubert Haas and Michael Klapka**, run The Music Agents two German offices in Hamburg and Munich. Klapka explains, "The Music Agents provides independent artists with the opportunity to get their products released via the different sales channels, and we support the artists on all relevant issues, including replication, distribution, marketing, promotion and booking." Adds Sullivan, "The band, management and publishers are very excited to have the opportunity for Del Castillo's music and live performances to finally get out in front of the European marketplace. Del Castillo will keep all their rights and, at the same time, get to work with such a great group of folks at The Music Agents/ SOLO Musica label. We are all energized to say the least!"
